

Don't Risk Churners and Burners

With unemployment holding at record lows, it is getting harder for Retailers to find a team member that is a perfect fit for their business. Australia's leading Retail Business Development Company, *Achievers Group*, is overcoming this by teaming up with *Spin Personnel* to ensure Retailers get the employee they are looking for every time!

A customer focused, dedicated, hard working employee goes a long way to providing a Retailer with continuing success. But without the help of a Retail-focused Recruitment Company this person can be impossible to find!

"We provide Retailers with strategies to build high performing teams, yet on many occasions Retailers still feel out of their depth when attempting to recruit the Superstars that they want," said Achievers Group Managing Director, Tony Gattari, the man heralded with growing Harvey Norman's Computer Division from \$9 million to \$565 million in 9 years.

"Spin Personnel has been operating successfully for more than 15 years and counts National Retailers such as Sumo Salad, Cue Stores, Howard's Storage World and Millers Retail, amongst their clients.

"What makes Spin Personnel unique is their passion to provide outstanding personalised service," Tony Gattari continued.

While many recruitment companies adopt a 'churn and burn' approach using and discarding a large number of candidates, Spin Personnel provides a personalised service that is only possible because of their boutique nature.

"What makes Spin unique, is our passion to constantly seek out the brightest and most talented people for our clients," said Merle Klug, Spin Personnel's Managing Director.

"We believe that achieving the perfect fit between client and candidate ensures that we add value to our clients' recruitment process. This is the basis of building a long-term career for our candidates," she added.

While it isn't possible for Retailers to be experts in every area of business, Achievers Group is a company they can call on to improve their weaknesses. If recruitment is one such weakness, Retailers can now utilise the combined experience of Achievers Group and Spin Personnel to ensure they get the right candidate, every time!
